

Description

- The Grade II listed property stands prominently amidst open countryside and has been creatively enlarged at lower ground floor level to provide additional contemporary living.
- The castellated tower accommodates two en-suite bedrooms with staircases designed to maximize the space finishing with access to the roof terrace which provides stunning views of the surrounding countryside. From the reception hall the staircase descends to the circular media room and through to the main living area. Although being part subterranean the area is filled with natural light by way of extensive glazing and an open plan kitchen, dining and living area. From here the sliding glazed doors open out to a private courtyard garden and swimming pool.
- Two en-suite bedrooms providing master and guest suites are sited below ground with glazing from the inner courtyard and skylight, providing excellent natural light into the bedrooms. The courtyard can be accessed from the bedrooms and utility room.
- As one would expect from a project of this nature, the specifications are of the highest standards with the latest technological advances being employed.
